Ashville Vision Statement

"Remembering our rural heritage, Ashville will be a vibrant & friendly community, offering an enhanced quality of life achieved through planning, progress & collaboration.

It will be a welcoming place where people want to live and businesses prosper."

The Mayor's Column 752 VIKING WAY

The traffic study at State Route 752 and Viking Way has been completed by ODOT. David Carlin from District 6 reported, "The traffic counts have been processed to determine if a signal is warranted at the SR-752/Lockbourne Eastern intersection. The counts and warrant analysis are attached to this email. This information shows that a traffic signal is not warranted at this intersection. From the feedback I have received on the current 4-way stop condition it is working well. I recommend that we meet again in three to six months to review any issues that may develop and determine how to move forward. Feel free to contact me if you would like to discuss this further."

We did discuss this intersection in our previous Volume 12 Issue 1 Newsletter. The complete message from Mr. Carlin, Traffic Study, Traffic Data, and ODOT Standards can be found on our website. We created a webpage to keep you informed.

Since ODOT has decided that the 4-way stop will remain, Ashville has requested that better signage be added. That request to ODOT included double stop signs, advance notification of the stop sign, and illuminated stop signs.

As reflected in our Vision Statement, we are committed on having an enhanced quality of life. That quality of life is certainly impacted by safe and efficient movement of traffic in or near the Village of Ashville. Any traffic accident at this

location will likely involve the Ashville Police Department and/or the Harrison Township Fire Department. While we hope there are no such occurrence, if there is/are we will track and communicate that information to ODOT.

We will also be involved with any meetings that ODOT purposes to discuss this intersection. I feel at some point in time this intersection will be in the village and we want it to come in safe and efficient. If you would like your voice your opinion contact:

David Carlin, P.E. ODOT, District 6, 400 E. William Street, Delaware, Ohio 43015, 740-833-8345 or email: David.Carlin@dot.state.oh.us

Consumer Price Index (CPI)

Results in 1.5% Utility Increase

In 2009, Village Council passed an Ordinance that would allow for a method to keep the cost of operating utilities in line with the fees associated with that utility. Ordinance 2009-03 indicates that after December, the Consumer Price Index (CPI) is used to determine what is needed to maintain a rate schedule consistent with costs, that adjustment is based upon a December to December average. For 2009 the adjustment was 2.7%,

for 2010 that was 1.5%, for 2011 that was 3.0%, and 2012 that was 1.7%. The CPI for 2013 is a 1.5% increase. That percentage will be reflected in the next billing cycle. The impact of the rate change can be seen on the table to the right based upon a per 1000 gallons of usage. The Water Tower fee is not impacted by the CPI. Therefore, there is no adjustment.

A description of the CPI can be found at www.ashvilleohio.gov.

Infiltration & Inflow (I & I)

A portion of the new total sewer fee will be set aside for I & I. That set aside amount will be 34¢ of the/thousand gallon wastewater fee. The result of that can be seen in the table to the right. You can find more information about I & I on our website ashvilleohio.gov and go to "Department -Utility".
